

Metal Manufacturing Solutions.

Bridgeman is a recognised market leader when it comes to best practice metal manufacturing. If you're looking for an innovative and adaptable company and experience that delivers for projects of all shapes and sizes, then Bridgeman is your solution. We can visit your site, listen to your unique requirements, and then develop a solution tailored to you.

As an Australian Stainless Steel Development Association (ASSDA) accredited fabricator since May 2004, we are committed to maintaining the highest standards of quality and service. We work across all metals including, stainless steel, mild steel, aluminium, brass and copper.

Bridgeman has in-house welding operators qualified to AS/NZS 1554.6 and AS/NZS 1554.1. Our team include WTIA qualified welding supervisors (AS1796 Cert 10), an International Institute of Welding (IIW) and an International Welding Specialist (IWS).

Bridgeman is proudly ISO Accredited for Quality Management Systems, Environmental Management Systems and Occupational Health & Safety Management Systems.

**METAL
MANUFACTURING
SOLUTIONS**

Experience that **delivers.**

Exceptional project management is what we do best, and our flexible, collaborative approach ensures a smooth project from start to finish. Our expertise is unrivalled, whether it's manufacturing, engineering, drafting or fully customised design and manufacturing, including galvanising, powder-coating, anodising, and state-of-the-art laser cutting.
