

Defence, Government & Infrastructure.

Bridgeman has been delivering end-to-end solutions in Queensland and across Australia for more than 25 years and has over 10 years' experience in working within the Defence Industry. Originally founded in 1997 as a metal manufacturing company, Bridgeman has transitioned into one of Australia's most trusted and respected multi-faceted solutions providers. Our company operates across the primary areas of metal manufacturing, construction & landscape.

We are proudly Indigenous owned and operated and Supply Nation certified and we support the Australian Government's Sovereign Industrial Capabilities Priorities, the 2020 Force Structure Plan and the Defence National Manufacturing Priority road map.

Bridgeman's Indigenous Procurement and Employment First policy allows us to assist the Australian Defence Force and Prime Contractors with their Indigenous procurement policy. In addition, our Indigenous and non-Indigenous Supply Chains are 100% Australian Industry Capability compliant.

One of our key strengths is our capability to adapt and diversify when and where needed. From advanced metal manufacturing to major construction projects, we pride ourselves

on our capability and capacity to provide flexible solutions, over and above the scope requirements. Bridgeman provides the Australian Defence Force with a whole of product lifecycle solution which includes, design, manufacture, installation, construction, and maintenance.

Our priority is the health and safety of our people, our clients, contractors, and our community. Bridgeman holds an Open Builders Licence and is proudly ISO Accredited for Quality Management Systems, Environmental Management Systems and Occupational Health & Safety Management Systems.

In addition, Bridgeman is honoured to participate in the Prime Minister's Veterans' Employment Program for ex-Australian Defence Force members.

DEFENCE
GOVERNMENT +
INFRASTRUCTURE

Experience that **delivers.**

At Bridgeman, we are accountable, transparent, open and honest and deliver the results we promise. We deliver a large range of quality, cost effective services for the Australian Defence Force through a single point of contact, saving time, money and stress.
